

STAT2430

UHF RFID ACTIVE TAG

Key Features:

- Long reading distance
- Ultra low RF power consumption, long life time
- Excellent anti-collision mechanism makes multiple tags real time monitoring adaptable
- High protection grade
- Large user memory, which can be used for many flexible applications
- Intelligent temperature monitoring function
- Support RSSI function

Typical Applications:

- Cold chain logistic | Temperature monitoring and collecting
- School students management | Vehicle and asset tracking
