Creating new digital assistant
for enterprise

By leveraging best practices, efficiency,
as well as burden reduction, are enhanced

as well as burden reduction, are enhanced
by leveraging best practices, efficiency,

Applications

Shoes and Clothing

Supermarket

E-Commerce

Logistics

It meets the needs of industrial applications requirements

- High-performance Core + Enterprise-level Management System = Long-term Stable Operation
- Various wireless communications methods that ensure fast data transmission

- Industrial-grade scanning engine, 1D and 2D code can be identifiable
- Customized the scanning code as required in different industries

Handy to hold and Easy to put into your pocket

- The ergonomic design allows users to hold the product for extended periods of time without feeling fatigued.

- Lightweight and streamlined body design, handle and carry easily, highly efficient at the workplace.

More durable, Effectively reducing business costs.

- IP65 Sealing & 1.5m Drops to concrete protection level, reducing the use failure rate

- Removable battery; longer standby period and sufficient time for staff switching their work shifts.

AUTOID[®]3 Parameters

Parameters/Functions	Conf Spec
CPU	Quad-core 2.0GHz
OS	Android 9.0
RAM+ROM	2+16GB
Display	3.5-inch
Battery	Removable 4200mAh
Protection Level	IP65&1.5m drops to concrete
Dimension	158 x 66 x 18mm
Weight	239g
Camera	5 mega-pixel Rear Camera
Scanning Sensor	1D/2D Scanner
WLAN	IEEE 802.11a/b/g/n/r/ac
WWAN	4G Full NetCom
WPAN	Bluetooth 4.2, NFC(Optional)
