

Comprehensive Performance
Great value

CRUISE™ Ge2
Smart industrial mobile terminal

Product Introduction

CRUISE™ Ge2 has been fully upgraded on the basis of continuing the high performance, ruggedness, and long-lasting battery life of the CRUISE™ Ge. The product configuration has been improved, and the humanized design has been strengthened. It is committed to better satisfying the applications of logistics and express delivery, manufacturing, public utilities, retail stores, etc.. Helps enterprises to collect data more efficiently.

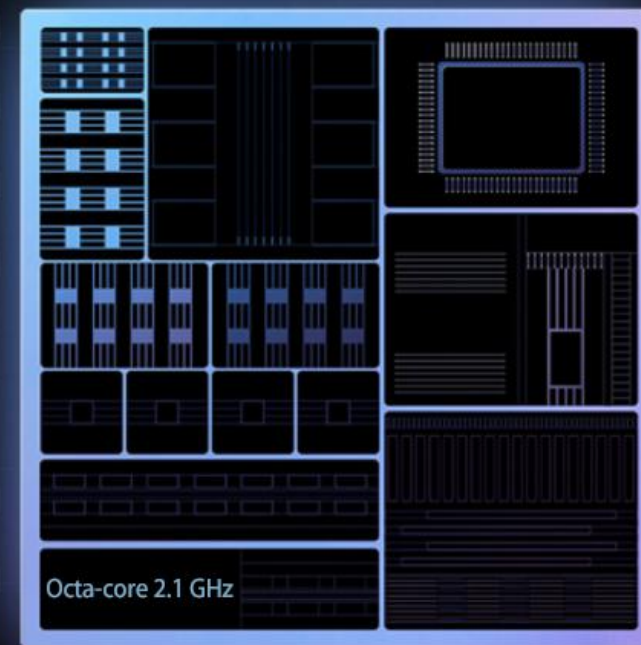

Configuration upgrade
Meets all kinds of scenarios
& applications

Strong Performance

Let the Operation Go Smoothly

- CPU: Octa-core 2.1GHz
- Operating System: Android 10
- Memory: 4GB+64GB (6GB+64GB compatible)

Broad Big Screen for a More Comprehensive view

- 5.5-inch screen, narrow width, wide field of vision at a glance
- High brightness can be set up, clear enough even under bright light which make outdoor job easier.

Ergonomic Design

For your better usage

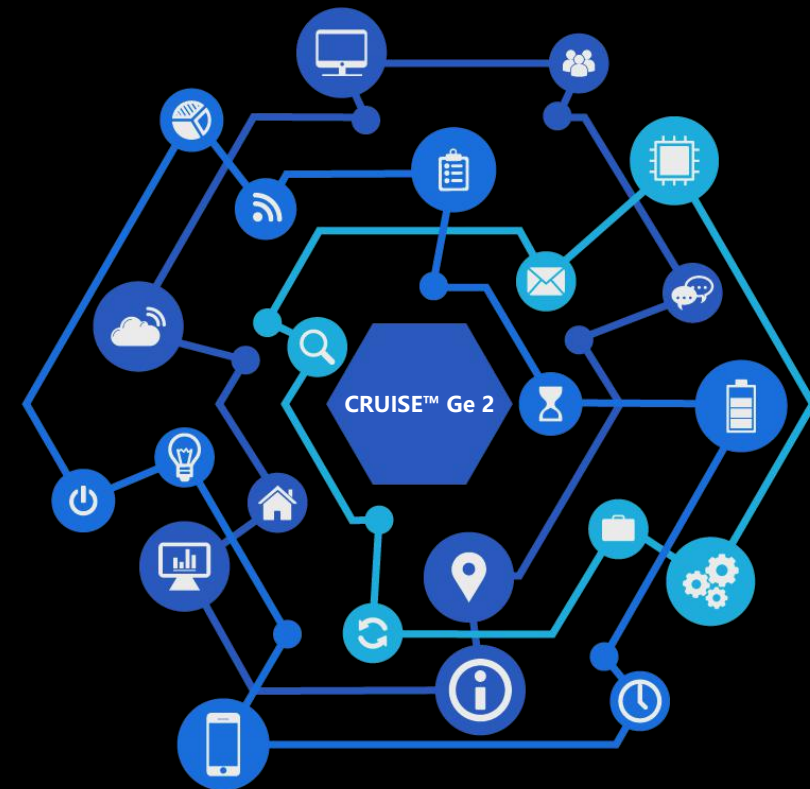

- The back arc Ultra slim design, make griping more comfortable. Also more portable and lighter compared with the device of same battery configurations.
- Press key optimized, retain three physical touch keys at front side , enlarge the size of SCAN button which leads a higher efficiency.
- Bottom speaker design, users can perceive higher volume.
- Optional fingerprint on the side, unlock all at one step.

Multiplexing data transmission

More stable and more fast

- 4G full netcom, dual-SIM dual standby.
- 2.4G/5G dual-band professional Wi-Fi, strong anti-jamming capability, fast connection, seamless roaming.
- GPS overall improved, signal stronger and more accurate, to maintain consecutive working in weak signal environment, support GPS、Beidou、Glonass.

High-capacity Removable Battery

Easier to Replace

- 5000mAh Ultra-Large Capacity Battery with Smart Power Saving Technology, Work longer than 14 hours (optional 6000mAh battery supported)
- Support fast charging with 18W (standard), and 27W (optional) Fully restored only in 100 minutes
- Removable battery design, support backup battery, support hot swap
- With battery capacity gauge, battery management is easier

5000mAh

More Durable

Meet Most Challenging Environments

- IP67, 1.8m drop
- Passed 60 + reliability tests, adapted to a wide range of adverse environments

Professional Scanning Engine

Unmatched scan speed

- Supports high-density barcode identification
- Fast and accurate identification, can scan more than 3 times per second
- Professional decoding technology, easy to decode a variety of bad barcodes
- Multifunction, support multi-barcode

Megapixel image sensors We can all read

Bubble Bag

Bend Code

Codes on Screen

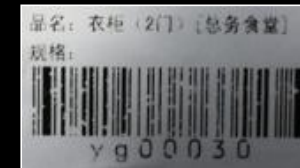

Stained Barcode

High Density Barcode

Oiled Barcode

Matte Silver

DPM Code

PDAF Phase Focusing Technology

Clearer HD “Dual Camera”

- 5 MP front-facing fixed focus camera + 13 MP rear autofocus camera, Meet the photoing demands in different scenarios
- Adopt PDAF phase focusing technology for faster focus, better image quality and faster and clearer image acquisition.

MDM Makes Enterprise More Competitive
